MUBASHSHIR RAZA

Klaviyo Email & SMS Specialist — Flows, Campaigns & Retention Execution

Delhi, India | Remote (Async, US-Market Execution) | mubashshirt@gmail.com | +91 98182 96889

PROFESSIONAL SUMMARY

Hands-on Klaviyo specialist (**Klaviyo Product & Deliverability certified**) with 7+ years building and running flows, campaigns, and segmentation for US-facing audiences — not theory, built and managed accounts end-to-end. Runs a **zero-error QA discipline** (links, UTMs, render tests, deliverability checks) across every send, and manages **multiple brands and verticals in parallel** without dropping a deadline. Builds behavioral and lifecycle-stage segmentation that has driven **50% CTR and 35% revenue lifts**, and reports performance in the exact terms this role runs on — open rate, click rate, revenue per recipient, flow performance.

CORE SKILLS

Klaviyo Execution: Flow builds (welcome, win-back, re-engagement) · Campaign scheduling & briefs · Behavioral & lifecycle-stage segmentation · A/B testing (subject lines, send times, offers)

QA & Deliverability: Zero-error send discipline · Link/UTM/render testing · List hygiene · SPF/DKIM/DMARC · ISP-level suppression

Reporting: Open/click/CTR reporting · Revenue-per-recipient analysis · Flow-level performance breakdown · Tableau / MIS reporting

Ops & Coordination: Multi-brand calendar management · Async remote collaboration · API integration · HTML/CSS/Liquid · Jira · Basecamp

PROFESSIONAL EXPERIENCE

Senior Email Marketing & CRM Team Lead — OPK E Services Pvt. Ltd. (A Rooftop Media Subsidiary)
Feb 2021 – Present | Gurugram, India (Remote-executed for US audiences)

- Build and run flows and campaigns across **Klaviyo, SFMC, and Ongage** for a **$11.5M+ multi-brand, multi-vertical portfolio** — 9–12 sends/day, 3.6M sends/day, entirely for US-market audiences.
- Built and maintained a **3-layer behavioral segmentation model** (demographic, engagement tier, lifecycle stage) that lifted **CTR 50%** and **revenue 35%**; ran sequential A/B tests on creative and CTA that added a further **30%** and **15%** CTR.
- Own QA on every single send — link, UTM, and render checks, list hygiene, and deliverability validation — holding a **zero-error standard** across 4+ years and a **0.26% unsubscribe rate** at multi-million daily volume.
- Manage **multiple brands and verticals in parallel** on a shared production calendar — Insurance, Home Services, Financial Services, and Health & Beauty — without missed deadlines or scheduling conflicts.
- Report performance weekly against open rate, CTR, revenue-per-send, and flow-level breakdowns, translating findings into segmentation and creative recommendations for stakeholders.
- Engineered a custom API pipeline (Telegram Bot + Claude LLM + ESP API) to auto-generate and deploy responsive HTML templates, cutting manual build time by **80%** — comfortable working at the API/integration layer, not just inside the ESP UI.

Email Marketing Analyst — Collegedunia Web Pvt. Ltd.
Sep 2018 – Jan 2021 | Gurugram, India

- Owned end-to-end email execution — creative development, campaign builds in Netcore, audience selection, monitoring, and performance reporting — for a high-traffic education-marketplace platform.
